There is some slight excuse when the selfishness of self-interest induces a people to chain themselves to the car of barbarism, like Kentucky or Arkansas, but for a free state that has nothing to gain but the gratification of its innate cossedness, to refuse to assist in lifting the na. tion to a higher plane of civilization, is a burning diagrace not only to herself but to do se was almost a moral crime, and after an individual or a state has taken one next. This refusal of her legislature to dog laws. ratify this important measure, is in keeping with her previous political action, and rounds off in harmonious proportions, the part she took in the last presidential election.

What may Happen. Military critics are of the opinion that if the rebels fail to check Sherman's advance upon Richmond, Lee will be compelled to evacuate the rebel capital, and, using his army for a body guard for Jeff. Davis and his cabinet, endeavor to make good his escape to Mexico, via East Tennessee. Lee must soon fight or run, and if he runs, the only route left open for his but by deeds, for he kept on sell escape is the one indicated above, and to ing very poor whisky by the small prepare for this emergency, General Thomas is concentrating a large force at Knoxville and Chattannoga. Their precious necks are of great value, in their own estimation. With the capture of Wilmington, the chances of escape for the rebel leaders are not very promising, and to be able to reach the congenial domain of Maximillian, must be the burden of their most carnest prayers, that is, if such bad men can ever be said to pray

## A Big Thing.

Now our local editor is in his element. Not that he has a great fire to chronicle involving the loss of millions of property; not that a startling cold-blooded murder. or a horrible case of rape has been commit ed; nor yet is there an elopement in high life just come off or gone off, nor any of those enjoyable things which ye local is wont to roll as a sweet morsel under his voluble tongue, and with which he delights to startle the expectant and sensitive public. A genuine case of adultery between staid and respectable people, em-bellished and adorned in the very highest and most artistic style of the reportorial art, is not a priming to the interest. ing and all-abolishing item whose publication commences to-day. He has found in the Madison Journal, a list of the incomes in Rock county for 1863, as returned to the assessor, and as he knows how greedily we all are to know all about everybody's business, even if it involves, as it often does, the neglect of our own personal affairs, he has seized up on it with an avidity that none but a local e litor can realize or appreciate. He ders to bet his entire interest in the Rock River Petroleum Oil Joint Stock Company valued at \$300,000, that every man and woman in Rock county that takes the Ga-ZETTE, will not miss the reading of a single name or figure in the whole list. He understands poor human nature like a book.

#### Taxable Incomes in the 2d Congressional District.

[From the Madion Journal.] Considerable anxiety has been expressed that a list of the incomes for 1863 for the 21 Congressional District, as returned in 1864, be published. Learning that such publication is looked upon with decided favor by the head of the Internal Revenue Department at Washington, and desirous of gratifying the public, we commence the publication of said list to-day. We have copied from the books of the Assessor, the list as returned for the special income tax of five per cent, levied on the 1st of October, 1864. The list is arranged by towns, showing the amount of in-come in each case. We give Rick county in full in this issue, and shall give each of the other counties in the district as fast as we can find room. This list will be looked

## FROM SHERMAN'S COMMAND.

New York, March 8 .- The Herold's Wilmington correspondent of Feb. 23d says they have there confirmation of previous reports that Gen. Sherman has reached Cape Fear river, N. C. It is said that ne had struck that stream sixty miles above Wilmington previous to the 1st inst., thus completely spoiling the rebel plan for effeeting the concentration against him and oreing him to give battle in the vicinity of Goldsboro at which point they expected to have a combination of advantages in their favor which would insure his defeat.

just previous to the occupation of the town by the national forces, admitted that Sherman's movements if he was not soon checked might have the effect of compelling Lee to abandon Richmond and

February Sherman was at Camden, South Carolina, on Watseo river, a little over 100 intles southwest of Fayetteville on Cape Fear river, which town it was believed he has before now reached. There were rumors in the Army of the Potomac on Sunday last, that Sherman had defeated Johnston in heavy battle, and captured 15,000 prisoners.

Sherman's occupation of Columbia from the Augusta Constitutionalist of Feb. 27, derived from citizens of Columbia. It appears the rebel troops in large numbers left on the 17th Charlotte. Gov. Magrath left on the 18th for the upper section of the State. Beauregard left on same day for Charlotte, Maj. Goodwin went the same day and surren-dered the city to Sherman. The public dered the city to Sherman. The public stores were thrown open and every body helped themselves. No stores were burned Sherman's army entered Columbia in the forenoon and they soon commenced destroying property. Depots and arsenals were blown up and buildings in the suburbcontaining public stores fired. Late in the afternoon a pile of cotton in a street near the Congaree House took fire from sparks and flames and spread to some wooden buildings which were near, when a strong wind drove the flames down both sides of the street. The scene became most terrific. Loud explosions continually filled the air; the residences and ground were shaken as by an earthquake, and vast columns of smoke and lames rose to the heavens. Nothing of any account was saved, goods, provisions, The distance burned on Main street

is about a mile and a half. Dr. Reynold's house is the only one left standing between the sections known as Cottontown and the State House. The fire also extended from five to ton blocks east of Main street, destroying everything, and the entire business portion of the city is in ruins. Both botels, the Guardian and Carolinian newspaper offices, and a num-ber of churches, the Catholic Seminary, all the depots, the buildings at Charlotte Junction and Evans and Cogswell's printing establishment are burned. All R.R. cars and engines which the rebels did not remove are destroyed and only three churches are left standing-the Catholic, Episco oal and Presbyterian. The old State Louse was blown up but the new one was not touched, it containing a statue of Wastington. Wade Hampton's house was saved by Federal officers. Gen. Preston's house was also saved and given to the occupants of the Catholic Seminary who e property was accidentally destroyed. The railroads about Columbia are all torn up,

partment has received an official report from Gen. Dahlgren, of our possession of Charleston, South Carolina. The report is dated Georgetown, South Carolina, February 2Sth, flag steamer Harrest Moon, in junction of Schofiedl's force with Sherwhich he says under date of the 26th. I apprised the Department that the naval forces under my command had taken possession of Georgetown. As soon as the occupation of Charleston left my thoughts and means at liberty. I gave my attention to this point as likely to be the preferable line of communication for Gen. Sherman in case such became desirable before entering North Carolina. Accordingly, I soon began to collect a suitable force from from Hancock's Headquarters, Winchesthis station. The McDonough, Cerenaum ter, that Sheridan has routed Enly, but and two launahes, were ordered into the

we could collect were embodied in a battalion, the object being to pass up the Sautee with this body of men, take the road to Georgetown that traverses the rear of the rebel works, and assault it, while the vessels attacked the front. The infantry wato be under the command of Commander Stanley assisted by Lt. Col. Williams. On the 23d, the Pawnee crossed the bar and joined the Mingo and Nepste within,

upon which the rebels abandoned the bat tery. The White and Mingo steamed up the bay and took possession. The marines were landed and the municipal authorities tendered their submission to the Government. ernment of the United States. The battery mounted 15 guns.

Admiral Dahlgren calls special attention Admiral Danigren cilis special attention of the Department to Lieut. Steddard of the marines, who acquitted himself with credit and now has command of the largest force of marines that has been collected ogether for some time. He did good service in the field with the marines of the flast brigade at Bird, page. Commander fleet brigade at Birds neck. Commander Stillwagon of the sloop Paunee, in his report says he has sent a detachment of marines under Lieut. Breeze of the U. S. launch corps to occupy the fort. He also says: I have directed Commander Croighton to proceed carefully up Black river and have dispatched the try Catalpa with Lieut. Commander Hays, and Ensign Glass. to open communication with the army corps of signals, with Gen. Sherman who is said

to be some two miles off. Admiral Dahlgren has issued an order for the maintainance of the authority of the United States in Georgetown. Adam's Expressively the track near the station. The midnight train from Poiladelphia, when it came up was detained in consequence of some de tective track in their rear. No signal tight was seen by the engineer of the 6 n. train from Washington, indicating detention, and it proceeded regularly. There was a curve in the road and the train rat into the rear of the 12 p. m. train from Philadelphia. The engine of the 6 p. m. train from Washington was completely eneased in the rear car of the Philadelphic train which was filled principally with soldiers. As the collision occurred the end of the passenger car was elevated and the engine was encased in the forward end o the car. The passengers were shoved a this end and were buried amidst the ruinfrom which they were only extricated by cutting the car in pieces. One passenge was taken out dead and two others so lat ly injured that they died in a few minutethe wounded were taken to houses near by and all attention was shown them. ## FROM WILMINGTON.

Fortress Monroe, March 4.-The steam er Cumberland arrived here this morning from Wilmington, N. C., the 23d with about 400 of our released prisoners taker by our forces at the capture of Wilmington. It appears by advices brought by the Cumberland that there is no truth in the reported arrival of a portion of Gen. Sher man's forces at Wilmington or even that a junction has been effected with General Schofield's army. Gen. Schofield with a part of his army had advanced about ten miles out from Wilmington and met with frequent re-istance from prowling bands of guerrillas and small detachments of the enemy who appeared to be ever on the alert to pick up stragglers belonging to his command. The robels were also actively endeavoring to cut off the supplies which were lest at Wilmington under a strong guard for the use of his troops.

Nothing of the movements of Gen. Sher man was known in Wilmington, though it was anticipated that Gen. Terry would soon resume active movements in aid of the campaign in N. C.

New York, March 8 .- The Herald's Wilmington correspondent of February 231, makes no allusion to the reported man's. Schofield was busy perfecting plans for the continuance of his campaign in North Carolina.

The exchange of prisoners in Cape Fear river was going on. Our prisoners received look well except their want of clothing.

by a new method, and with remedies that are eminently successful in the above class of chronic diseases. The thinking and unbiased portion of the community will appreciate the great advantage of a permanent and reliable institute for the cure of chronic diseases that usually baffle the skill of the general practitioner. Catarrh, that great promoting cause of Communition at the Northwest, always gires way upon a, plication of the new remedies. Dr. Hale has never encountered a case of this disease he could not cure. The present season is very favorable for applying proper romedies; delays are dangerous. Your case may be cured this menth, not next, to-day, not to-morrow.

All who are suffering from any of the diseases Dr. Hale makes a speciality in treating, should at least call and investigate the new system for themselves. No person of good sense and seem judgment will, without full and careful investigation, denounce as manifely that which claims to pussess merit.

Dr. Hale takes pleasar in referring to the following responsible purities, citizens of Janeville, who can are all and investigate the new system for the Northwest that have been cured:

#### Legislative-Correspondence. [From Our Regular Correspondent.]

Manison, March 7th, 1865. Editors Gazette:-In the Senate last night, the bill increasing, printers' fees for legal advertising, amended so us to fix them at 60 cents a felior for the first and 35 cents for subsequent insertions, was ordered to a third reading. The bills passwere all of a local character.

In the Assembly, among the bills intre-- luced, were bills "to exempt woolen manaffectories from taxation," and to incorporate the "Beloit Petroleum Co." The Committee on State affairs reported on a petition for taxing aliens, showing that such a law could not be constitutionally enacted and also advocating the inexpediency of any such act. They also reported on the petition of S. F. Jones and 101 other colored mon of Wisconein, praying for the right of suffrage, by recommending the passage of a bill to extend the to her population and wealth, in contriburight of suffrage," which is a verbatim tions of this kind, of all the loyal States, copy, except the number of the year, of leads the van. But the time is coming when the duties of these charities will have the act passed by the Legislature of 1857, been performed; --when our scarred and for the same object, and under which the war-worn Veterans will return, when many people of Wisconsin voted on the question,

In the Senate this morning, a joint resolution accopting the land grant was taken up. A motion to indefinitely postpone was lost by a vote of 7 to 50, and the resolution was then adopted. This resolution is somewhat different in terms from the Assembly one the Senate refused to be where you will?—or shall we, with concur in, but is in effect precisely the grateful hearts say: "Wisconsin's soldiers same. Among the Senate bills passed are Wisconsin's sons, and as the mother was one "to provide for taking a census of the people of this State." A motion to helpless warriors, our proudest and hapre-consider the vote indefinitely postpon- piest duty to repay the sacrifices they have ing the bill to authorize the Governor to made for us? Their wasted forms, their take the opinion of the Supreme Count maimed bodies, their heroic sacrifices, their take the opinion of the Supreme Court, was lost by a tie vote, the Lieutenant Governor voting in the negative.

In the Assembly, a joint resolution for printing an emigration document prepared by Mr. Moeller, the Danish Consul. The construction of a suitable building, a taxation" passed by a strong vote.

The delegations of railroad men in attendance are large and enthusiastic, and the Railroad Committee have began work in earnest. Their session to-night is largely attended by the friends of various railroad bills, and they expect to consider tables, eggs, butter, milk, cheese—anybusiness till 10 o'clock.

Several Democratic members are preparing their explanatory remarks to be given prior to recording their votes in favor of the constitutional amendment. I know that Mr. Abrams, is one of these, mine, the field, the forest, the loem, and and the names of the others have been mentioned. I am glad to hear among the mentioned names, that of the young member I wrote about as likely to be saved bythe influence of his wife prevailing over the battle field, and the tattered flags, clining political hack.

Wants a Convention. We learn from the Elkhorn Independent. that there is a strong desire in many portions of the District, for a Judicial District Convention, to nominate a candidate for Circuit Judge." The Independent then goes on to advocate the holding of such a Convention, and says that "it has been urged by many that the manner in which Judge Noggle has been called out is unfair, that men have been induced to eign fair, that men have been induced to sign a call for the Judge to be a candidate through "questionable motives," &c. It further says that a call is out for a Convention to meet at Elkhorn on the 17th of vention to meet at Elkhorn on the 17th of March, to nominate a candidate, and advises the people to send their delegates to

that Convention. Now we don't know but some slight of hand game may have been played on the an institution organized under the foster-attorneys. County Officers and Jurors of the State. It is to last during Walworth County, to induce them to sign the call on Judge Noggle which we publish on our first page, but we do not believe undue influence was exercised over the citizens of our county who signed that call nor that they were actuated by "questionable motives." And we presume the papers in other counties of this circuit would vouch for their citizens in the same manner, if called upon. The fact is some individuals who have axes to grind, and who cannot get the grindstone turned in Judge Noggle's court, are desirous of having a new deal, and as there was no other parent in the circuit which would consent to advertise and puff the thing, the Convention, was to be called at Eikhorn and the Independent to be "the organ" of the concern. The Racine Advocate and the Kenosha Telegraph, representing the Union sentiment in their respective counties, and the Monroe Sentinel and Broadhead Independent, of Green County, have hoisted Judge Noggle's name for a re-election, and we have no doubt that these three counties New Year. The Independent suggests that, in case the Convention should select a new man, it could not do better than to take Major R. Harkness, a member of the Walworth County Bar. And right here we think we find the cat in the meal. This Major Harkness is one of the Walworth a furlough. Co. Attorneys who signed the call on Call immediately at Leavitt & Deartion. GOTTSCHALK ON KNABE. [Translated from the French.]

[Translated from the French.]

After having played on the Plane of Mesars. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Planes of their samufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet\_clear and harmonicusty meliow, (chrystaline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal if not superior to the best manufactured in Europe or this country by the most celebrated makers.
